Selenium Pour-On

MINERAL POUR-ON FOR CATTLE AND DEER

Q. Can Inovata Selenium Pour-On be used at the same time as an anthelmintic Pour-On?

A. Yes, but any application should ensure that the two treatments do not mix on the back of the animal.

Q. Can Inovata Selenium Pour-On be used on animals other than cattle and deer?

A. No, Inovata Selenium Pour-On is only registered for use in cattle and deer.

Q. Is the performance of Inovata Selenium Pour-On impacted by rainfall?

A. Inovata Selenium Pour-On should not be used on wet animals or if rainfall is expected within 2 hours of treatment.

Q. What drench gun is recommended for applying this product?

A. A drench gun designed for use with pour on anthelmintics.

Q. Where can I purchase Inovata Selenium Pour-On?

A. Inovata Selenium Pour-On is available at your local veterinary clinic.

Q. Can Inovata Selenium Pour-On be used before I treat my cattle or deer with a lice or tick product?

A. Yes, but any application should ensure that the two treatments do not mix on the back of the animal.

Q. Can Inovata Selenium Pour-On be used in conjunction with an oral anthelmintic that contains minerals?

A. Inovata Selenium Pour-On should not be used at the same time as any other selenised fertiliser, prill or product without consulting a veterinarian.

Q. How old do your cattle and deer have to be to treat them with Inovata Selenium Pour-On?

A. Inovata Selenium Pour-On can be used on cattle or deer greater than 50 kg in body weight.

Q. Can Inovata Selenium Pour-On be used on all breeds of cattle and deer?

A. Yes, Inovata Selenium Pour-On can be used on all breeds of cattle and deer.

Q. What is the shelf life of Inovata Selenium Pour-On?

A. The expiry date of the product is clearly stated on the label along with the batch number.

Q. Can I safely use Inovata Selenium Pour-On together with routine vaccinations (e.g. 5-in-1) and other treatments?

A. You should consult with your veterinarian before using Inovata Selenium Pour-On alongside any other treatments. Although Inovata Selenium Pour-On is safe to use, other products on the market stipulate on their label not to be used at the same time as any other treatment.
